

## The life and times of: Henry McNulty

The GHS Class of 1965 has been generous in including me in your reunions, seeing as I didn't graduate from GHS. Unfortunately my wife and I plan to be out of the country in late May — otherwise I would love to see everyone again.

I have been married for 29 years and have a 21 year old son finishing his senior year at Connecticut College in New London. We spend half the year in Cheshire and half the year (the better half!) on Long Island Sound in Old Saybrook. I worked for the Hartford Courant for 26 years and left them in 1995 to start my own communication consulting business that's still going but winding down as I approach retirement. Yes, I am collecting Social Security!

My mother died in 2002 but believe it or not, my father, at age 98, still lives with help from my sister Sarah, in the house I grew up in at 8 Little Acres Rd. My wife, Anne and I have dinner with him every Sunday.

My best to you! I hope the class has a great 50<sup>th</sup> reunion and I wish I could be there!
